

# Learning.walsallhealthcare.nhs.uk

i took this advice and threw a bunch of stuff in a pot last night- lentils, mustard greens, assortment of chopped veggies and some veg stock

[www.walsallhealthcare.nhs.uk](http://www.walsallhealthcare.nhs.uk)

in developing countries, the use of high-titre vaccine at 4-6 months of age was associated with an unexpectedly high mortality in girls by the age of 2 years from infectious childhood illness
